

YALA WIDOWS AND ORPHANS SUPPORT PROJECT

2026 FIRST DISBURSEMENT REPORT

To our supporters, I am glad to present this report to you hoping that all have experienced God's Love through Easter Holidays. We are so happy and express our appreciation for the support which brings hope to those who have lost hope.

In this quarter, we provided school uniforms and stationery to OVCs (Orphans or Vulnerable Children), constructed a house for a widow who almost lost her family due to the heavy rains. We provided farm input to several women most of them being widows and caregivers of OVCs.

Our staff have also dedicated their time to serve members of the community without constraint since they are always sure of getting their salaries.

This widow had all the reasons to thank God for what He has done for her. We all glorified God as she testified in one of the Sunday services.

We provided school uniforms and stationery to the OVC's.

Winter is a great season for planting especially if you have farm input. It was all joy as we distributed farm input in our community.
