

YAWOSUP APRIL 2025 UPDATE REPORT.

The year 2025 began well with all our beneficiaries thanking God for the year 2024 which was full of blessings. We thank world mission team for the support which has enabled us to pay our staffs, construct a house for the widow who was very worried about the winter rains. Our children also benefited from the bursary and school uniforms.

As the winter rains began, most of the farms had been prepared for planting. We are happy to report that we managed to rent a farm as usual and planted our crops using the farm inputs.

We hope to get good harvest in September. This will enable us provide relief food at a time of need and also support Barbara Leighton Academy's school feeding program.
