

YAWOSUP MAY UPDATE REPORT

YAWOSUP Team wish to thank WMT for the partnership that has existed for many years. Many lives have been positively changed with the help of this organization which has had massive support from WMT. We continue to change many lives of widows, orphans and vulnerable children.

In this reporting quarter, we managed to hire one acre piece of land for YAWOSUP farm, where we have engaged caregivers to plant maize and beans which will boost feeding program at Barbara Academy and also support the widows and orphans during famine. We are through with the first phase of farming where we hire land, plough and tilt the land, plants seeds and weed. We are now moving to phase two where we hope to top dress, do second weeding and wait for harvesting and packing.

Other activities carried out during this reporting period included purchase of lockers and chairs for grade 7 students at Barbara Academy. This was an urgent support, which came as a result of unexpected instructions from the government for the school to start Junior Secondary School in Term One 2024. These funds were to be used to construct a house for a widow, which we hope to do in the second disbursement. The committee considered helping these children as a first priority.

We provided school bursary to 5 children in secondary school and school uniforms to more than 30 children in different primary schools.

YAWOSUP staff also got their salaries as usual and this made them work tirelessly. All this has been possible courtesy of support from WMT. May God bless WMT donors. Together we are giving hope to the hopeless.
